RUPSAGAR GAUTAM

DEVELOPER

ABOUT ME

Developer from Nepal seeking a challenging role in development to build responsive websites and efficient application. I combine practical coding skills with user-focused design, ensuring each project serves its purpose. Experienced in front-end development, UI/UX design, API integration, and basic programming with Python and Java through various projects.

PROJECTS

E-Learning Webpage (ShikshyaSathi)
- HTML CSS JS
- Django

Full Stack Webapp, designed and developed with long term vision for students to learn through online free resources. ShikshyaSathi, provides all the best online resources to those willing to learn by themselves.

Video to Audio Convertor
- Python

This application uses python with python library, focusing on downloading video from any online platform without losing quality. I've done this project for practice and personal use.

Store Management System
- Java

SMS, First Coursework Assessment in Itahari International College. This system stores items with all the required GUI.

Furniture Management System
- Python

FMS is the billing system which is second semester Coursework Assessment in Itahari International College. FMS doesn't contain GUI, only contains the backend code(functionality).

Personal Portfolio
- HTML CSS JS
- GitHub

Personal Portfolio Website to showcase my work.
Webpage has been deployed in GitHub pages and later linked with Cloudflare to make It look professional.

EXPERIENCE

FREELANCE GRAPHICS DESIGNER & VIDEO EDITOR

Oct 2022 - Jan 2024

Created Eye-catching Thumbnails, banners and social media visuals, along with precise and creative video editing that enhance brand stories.

Developed visuals that significantly boost online engagement. Adapted designs to meet the latest digital trends while maintaining a unique, recognizable style.

NEPALESE ESPORTS JUNCTION

Nov 2022 - Jul 2023

Role: Graphics Specialist
Led the redesign of the organization's e-sports platform, resulting in a 40% increase in overall sponsorship by grabbing audience retention.

Conducted overall feedback after end of each event which eventually increased trust of players. Collaborated with management teams to ensure organization goals were implemented accurately.

BROADCAST MANAGER

June 2024

Worked as an Event Manager and Broadcast Manager of PVIHM Esports Event, first LAN Event hosted by Prime Vision International College in Dharan.
Served as both Event Manager and Broadcast Manager, Contributing engaging designs and overseeing broadcast operations. Delivered Creative assets for event and broadcast operations.

Honored to Receive a token of love from the Prime Vision International Team in recognition of Quality work and dedication.
